- Egypt, Cairo

EDUCATION

Beni Suef University || 2018-2022

- Bachelor's degree in Computer Science with a very good grade
- I got an excellent grade in my graduation project
- I had finished military service

ABOUT

Passionate Frontend Developer specializing in Nuxt.js and Vue.js, adept at turning UI designs into scalable, high-performance, SEO-friendly web applications. Built a small Node.js project and now expanding my backend skill set by learning Java and Spring Boot. I'm driven by clean, reusable code, responsive UX, and maintainable architecture.

WORK

Frontend Developer

Namasoft | Jan 2025 – Present

- Working on a single enterprise project using Vue.js, TailwindCSS, and Quasar.
- Collaborating with a Java/Spring Boot backend team and learning backend development basics.

PROJECTS

Live Demo E-commerce Web Application

Stack: Vue , TypeScript, Pinia, TailwindCSS, Nuxt UI, Spring, Java

- Built a fully responsive, user-friendly storefront with light/dark mode toggle
- Dynamic product catalog with category filters and detailed product pages
- Cart management (add/remove/quantity), checkout flow and mock authentication
- Order history page displaying past purchases
- Modular code: reusable components, composables & route guards

Live Demo Architecture Portfolio Demo

Stack: Nuxt , Vue , TypeScript, Pinia, TailwindCSS, Nuxt UI

- Showcases company projects and services in a clean, responsive layout
